

Join Citizens Against Distracted Driving

*Dear Family and Friends,
I invite you to actively participate in
Citizens Against Distracted Driving
(CADD) with me to help bring awareness
to this epidemic that is killing and
maiming those we love.*

*The woman driving the car in the picture
was killed instantly and the driver who hit
her was texting. There is an accident
caused by distracted driving every
minute of the day!*

*CADD is a new Foundation established to educate people, especially young
people, about the dangers of distracted driving. Distracted driving includes
texting while driving, but it also includes simply making and receiving calls while
driving – which many law abiding adults do!*

*One great thing about CADD, is that the founder of CADD has a solution for
distracted driving because he knows people are not going to stop talking while
driving! **The solution is FDI Voice and it provides voice-activated dialing,
texting, and more. FDI Voice allows people to use their existing cell phones
without touching them! FDI Voice users never take their hands off the
steering wheel or their eyes off the road while using their cell phone!***

*I use FDI Voice and I am inviting all of my family members, friends, and their
family members to start using FDI Voice too. For as little as \$1.33 per day, you
can keep your entire family much safer behind the wheel! Plus, a portion of all
proceeds from FDI Voice goes to CADD to educate young people and keep our
kids alive!*

*Please call me today and start using FDI Voice. Just think how much safer our
streets and neighborhoods would be if everyone used FDI Voice?!*

*Thanks!
Jennifer

***I appreciate referrals!
The more referrals the safer all of us are!***

**Hands Free Driving
Is For Me!**
